Knives

<i>Product Name:</i>	<i>CTVWC#:</i>	<i>Price:</i>	
----------------------	----------------	---------------	--

Deepwood Big Detail	<i>KDW-104</i>	\$33.95	
----------------------------	----------------	----------------	---

Great carving knife for the details in larger carvings. If you like a little more blade to your detail knife, this knife would work well for you. Approx. Cutting Edge Length: 1 1/4" x 7/16"
Approx. Overall Length: 6 3/4"
Handle: All handles are figured wood

Deepwood Detail	<i>KDW-201</i>	\$33.95	
------------------------	----------------	----------------	---

Just like the name suggests, a carving knife for all your detail work. Smaller bladed knife for those hard to get to details and small incising. Approx. Cutting Edge Length: 1" x 5/16"
Approx. Overall Length: 6 1/2"

Deepwood Draper Detail	<i>KDW-203</i>	\$33.95	
-------------------------------	----------------	----------------	---

This knife is great for small details. The longer cutting edge enables you to carve on the larger part of the carving and then move right into the details without changing knives. Named after a local wood carver. Approx. Cutting Edge Length: 1 5/8" x 1/4"
Approx. Overall Length: 6 1/2"
Handle: All handles are figured wood

DeepWood Roughout Carver	<i>KDW-100</i>	\$33.95	
---------------------------------	----------------	----------------	---

This is a great all-around roughout wood carving knife. You can take off alot of wood in a short time. Also, the drop point tip allows you to carve in those large details. Approx. Cutting Edge Length: 1 3/4" x 1/2"
Approx. Overall Length: 7 1/4"
Handle: All handles are figured wood

Deepwood String Beaner

KDW-204

\$26.95

This knife is a small detail knife, it really gets in the small spots. The handle is smaller than our other knives - 7/8" at its widest point. This gives you the option of a pencil grip for great control. We call it a string beaner because it is long and skinny like a string bean. Throughout production testing we would always say "give me the string beaner", the name just stuck. Approx. Cutting Edge Length: 3/4" x 3/16"

Approx. Overall Length: 6 1/2"

Handle: All handles are figured wood

Styles Available: figured handle, blank

Deepwoods 1" Scalpel Straight

\$24.95

The idea behind this knife was: make it as inexpensive as possible and still give the customer a great detail carving knife. With a one inch cutting edge on a simple, straight forward handle, this knife offers you the ultimate in savings. The handle has no finish to it, just raw wood. We use any available handle material and put a hand forged, sharp blade in it.

Deepwoods Scalpel 1" Upsweft

\$24.95

The idea behind this knife was: make it as inexpensive as possible and still give the customer a great detail carving knife. With a one inch cutting edge on a simple, straight forward handle, this knife offers you the ultimate in savings. The handle has no finish to it, just raw wood. We use any available handle material and put a hand forged, sharp blade in it.

Flexcut 3" Draw Knife

KNF-104

\$31.13

This handy little draw knife was developed for fan carving but works great for skinning bark and roughing-off corners. Fits nicely into the tool box.

Flexcut - 5" Draw Knife

KNF-105

\$37.76

Our flexible draw knife has 5 inches of workable edge, designed to flex around contours where large amounts of stock need to be removed quickly. The tool can be flexed to accommodate concave or convex surfaces. Cuts can be made that conform more closely to the finished shape, taking less time to sand or scrape. The curved edge gives a skew-like cutting action for a low resistance cut. This tool works great for carving chair legs, hollowing chair bottoms or quickly roughing-out decoys.

Beautiful Cherry hardwood handle, leave as is or burn your name in the handle

Kolrosing Knife

\$24.95

Kolrosing is a little known but very beautiful craft having Scandinavian roots - often mirroring intricate rosemaling patterns. It has all kinds of untapped possibilities from decorating spoons, carvings, furniture etc., or making a picture. Draw with the knife just like you would a pencil (no shaving is removed). For tight turns and extra fine control the cut is quite shallow, levering the tool away from you with the opposite hands' thumb against the rounded back of the blade. Then take a pinch of extra finely ground coffee, (powder consistency) rub it into the carved area, sand away all excess coffee, apply finish, and voila! Some people eventually gain enough control to even sign their name. (Be sure to check out the VHS/DVD devoted to kolrosing). Blade is approx. 5/8" long.

Pinewood Detail Knife 5/8"

\$24.95

he detail knife has a back-angled, hollow ground polished edge, and a very sharp point. The steel is the same finely hardened and tempered Swedish high carbon tool steel as the Harley knife. The handle is shorter than the kolrosing knife so it can be held either like a pen or in the palm. We hand-turn each handle from our stash of beautiful hardwoods - so each handle is an individual. Comes with a wooden sheath. Blade is approx. 3/4".
